

Empowering Tomorrow, Today with Main Flow

JAVA FULL STACK DEVELOPER

TASK-4

Building a Simple To-Do List Application

Description:

The intern will develop a basic to-do list application using Java for the backend and HTML/CSS for the frontend

Responsibility:

1. Design the user interface using HTML and style it with CSS for a simple and intuitive layout.
2. Implement backend functionality using Java Servlets or Spring Boot to handle CRUD operations for tasks.
3. Connect the frontend and backend using AJAX or Fetch API to enable dynamic updating of tasks without page refresh.
